Bob and Dave:

I hope you guys are doing well.

We recently sent an NOV/FOV to US Steel Gary and Great Lakes (Ecorse, MI) for blast furnace opacity and iron beaching. The Gary NOV/FOV is attached below.

We are having an NOV conference with US Steel on 7/21, 10:00 am to discuss both locations. I expect the discussion will be limited to these few issues. We will not talk about the larger case, which is still moving forward albeit slowly.

Please let me know if you or any other IDEM folks are interested in joining the conference on 7/21, I'd imagine by phone, but that's up to you,

(See attached file: USS Gary Inter NOV.pdf)
